

## Foundation 4 Heroes completes 3 hospital tour in one day

Posted by [TBN News](#) On 08/27/2015

Foundation 4 Heroes decided to honor Baltimore's first Batman, Lenny Robinson, after his fatal accident, by continuing to visit hospitals but recognize Lenny in the process. He was simply the best.

One hospital visit can be emotionally exhausting but three...was awesome! Children's Hospital, Georgetown Hospital and the National Rehabilitation Center of Washington were all pumped up for our stop. We couldn't stop talking about our visit and the special kids we met on our drive back. The 10 hour day went by quickly.

We gave out over \$500 in superhero capes and masks to the already amazing heroes, even a few staff members, but no names can be revealed. It was a really great time and we appreciate your support, which allows us to make these trips.

Later that night we presented the Gabriel Sanchez family with a \$300 check. Your donations and support in action. Thank you and enjoy the Mike Batson Photography pictures.
