

May 9 Horoscope

ARIES: Today is the day to organize productive professional or personal meetings. As an auspicious time for efficient communication, realistic plans, and group harmony, all of these ingredients for success and true advancement are available. Don't be surprised if you're the one in charge, because you're good at creating a warm, welcoming atmosphere.

TAURUS: Have you been reviewing your family history, specifically your cultural background lately, Taurus? What educational, social, and religious environment were you born into and what are its values? In the end, do you feel a strong affinity with them now, or are those views different from the ones you hold? These are interesting avenues of thought for you today.

GEMINI: It's time to elevate your sense of self, Gemini. You're just as good as anyone else, so why don't you believe it? Your problem is that you're very sensitive about having an ego. Even though you know everyone does, you punish yourself for its existence. While a noble idea, it doesn't do you any good because you'll never be perfect and neither will anyone else. What are you worrying about?

CANCER: Today your intellectual and expressive abilities should receive a boost from the planets. It's an excellent time to organize your thoughts about presenting a project to a possible collaborator, engage in trade, or write. With your private life, it's also a good time to examine the latest events, with certain aspects partially misunderstood.

LEO: Overall, the forecast for today is fairly good, Leo. The aspects seem to favor figuring out the meaning of all that's transpired over the past several weeks. It's an opportunity for you to take a leisurely look at how you've come closer to achieving your goals. Since it's an auspicious day for social activities, why not get together with friends and discuss the latest events with them?

VIRGO: Have you felt somewhat lost for the past few days? Your mental fog may lift today. You're probably eager to settle a question that has nagged at you and interfered with your judgment. Be patient, especially if it has to do with emotional matters. Try to understand, but don't take immediate action. You'll be more objective tomorrow.

LIBRA: You may have been feeling somewhat disillusioned, losing sight of your goals or misplaced your faith in yourself. You'll feel some relief beginning today, as this is an opportunity to end this apathetic and moody phase. You'll begin a new one that's based on work and meditation. As you can imagine, this new phase will be much more fulfilling!

SCORPIO: You might be tempted to settle certain matters by radical means, with the visionary part of you that is painfully aware of the world's wrongs. You see no reason not to take action to correct them. However, the forces in play are so powerful that you can't expect to institute a new order in one day. If you have an emotional question to answer, wait a few days before making a decision.

SAGITTARIUS: Despite today being fairly calm in terms of outside events, your inner world is likely to be in a rush of activity. Today you wish you could find the solution to your heartaches and your career predicaments. You'd like to achieve some understanding of the events that took place over the past month. Force yourself to slow down. Haste makes waste.

CAPRICORN: You have a lot of thinking to do about your professional goals, Capricorn. Analyze carefully before making a move. Are there new paths you could try or ways to improve things? Your mind will go a thousand miles a minute today, and those who spend time with you may be exhausted because of all the questions you ask!

AQUARIUS: You can't do everything at once, Aquarius. How do you expect to reduce your stress and recuperate while at the same time continue to be a superstar performer in every area of your life? Don't pressure yourself to perform today, because you'll deplete your reserves even further. Take it easy, rest, and relax!

PISCES: This is a good moment to adapt your logic and reason to reality, Pisces. If you don't, you're going to run into some intellectual problems. Everyone knows that you find new ideas plentiful. Unless you have plans to be a novelist, try to connect your thinking to reality. Your "pie in the sky" way of thinking isn't particularly useful to the rest of us living here in the real world.
