LEXINGTON PARK, Md. - U.S. Secretary of Labor Eugene Scalia recognized Sabre Systems, Inc. as a recipient of the 2020 HIRE Vets Medallion Award during a recent award ceremony at the Department of Labor. Sabre earned the Gold Medallion for consistent efforts and achievements in veteran recruitment and retention. Sabre has several initiatives in place to support the advancement and professional development of veterans. We are passionate about ensuring veterans have successful meaningful careers post military service and we take our role in that seriously. We also see and value the qualities and characteristics our veterans bring to our organization. Through their dedication, tenacity and mission awareness our team is made stronger and even more prepared to support our mission customers.

The HIRE Vets Act (Honoring Investments in Recruiting and Employing American Military Veterans Act) Medallion Program is the only federal award program that recognizes job creators who successfully recruit, hire, and retain veterans. The HIRE Vets Medallion Award is based on a number of criteria, ranging from veteran hiring and retention to providing veteran-specific resources, leadership programming, dedicated human resources, and compensation and tuition assistance programs. Sabre is proud to play our part in supporting veteran careers and is honored to be recognized with this award.

Sabre Chairman and founder, Phil Jaurigue stated, "this award is a testament to our leadership, human capital and talent management teams. Together, they work to attract talented engineering and technology veterans transitioning into the private sector. Once at Sabre, they continue to serve our nation by applying their skills in support of our mission customers. Congratulations to our Sabre Pros, and thank you to our veterans and their families who continue to be a source of pride.
