UPDATE: December 18 - Both dogs have been located. Their owner says "they are stinky and exhausted but safe. They're already passed out with their Daddy."

MECHANICSVILLE, Md. -- A Mechanicsville family needs your help to bring their lost dogs home. The two pups managed to get away from their home in the Country Lakes area sometime yesterday.

Owner Lauren Holt says Bane is a friendly black lab while Kota is an orangish-brown mixed breed.

"Bane is my husband's baby and we are worried sick. Kota is more reserved but a loved family member."
