

## Pets of the Week -- Ninja Kitties

Posted by [Dick Myers](#) On 06/01/2015

The Ninja kitties are here! Meet Donatello, Raphael, Leonardo and Michelangelo. You can meet them at the Petco in California on Saturday and Sunday from 10:30 to 2:30 this weekend as well as other babies and grown kitties too. Feral Cat rescue will be there every weekend until they find homes.]

These boys are super adorable and very loving. They live with kids and have had lots of human contact. They cost \$125 and are only eight weeks old. They are neutered, combo tested for aids and feline leukemia and have a microchip. They have been dewormed and have had their first distemper vaccine.

Feral Cat Rescue will provide their 12 week and 16 week distemper booster vaccines. You can visit [www.feralcatrescuemd.org](http://www.feralcatrescuemd.org) to see other cats and to download an application. Please email application to [diane@feralcatrescuemd.org](mailto:diane@feralcatrescuemd.org)

If you are seeing cats in your yard then please assume they are not spayed or neutered. Contact us to borrow a trap and at this time we have free spay/neuter grants.
