

Foundation 4 Heroes invited to USO Christmas party

Posted by [tbnBBM](#) On 10/28/2015

When Foundation 4 Heroes started their 501c.3 nonprofit organization, they wanted to inspire children in hospitals and talk to school children about finding the superhero inside each of them.

They have traveled to hospitals in multiple states to bring superhero capes and masks and also take countless photos with the little heroes. At schools and libraries they talk to children about their 5-step Superhero School Program to teach them how they can become a superhero and also encourage children to believe in themselves.

A while ago they decided that they should also support some of the greatest heroes our nation has ever known, the Wounded Warriors. They were fortunate to have had an opportunity to support the Wounded Warrior Amputee Softball Team at the last 2 softball games versus the NFL players in Bowie, Maryland, but wanted to do more.

They were just invited by the USO to come to their Christmas party, which will include over 500 Wounded Warriors and their families. This is a great opportunity to thank and give back to these true heroes.

They are looking for sponsorship to go to the party and give out superhero capes and masks to all of the children, because kids love them so much. The capes and masks are \$10 each and have ordered 1000 of these in preparation for the festivities.

All sponsors would be acknowledged publicly in several media outlets and it's a terrific tax write off. If there is an excess of capes and masks they would just use them on their next hospital trip and again thank the companies that helped make it all possible.

They welcome your support and hope to hear from you soon. If you feel strongly about helping them do something amazing for the Wounded Warriors and their families, you can either make a donation on their webpage: www.f4heroes.com or go to <https://www.gofundme.com/s46czptk>.

Businesses can also simply send checks payable to: Foundation 4 Heroes, 23415 Three Notch Road, California, MD 20619.
