

New traffic signal in Calvert County

Posted by [Cyn](#) On 08/12/2019

Calvert County, MD -- New residential development means a new traffic signal for Calvert County.

The Maryland Department of Transportation State Highway Administration (MDOT SHA) placed a new traffic signal at the southbound MD 2/4 (Solomons Island Road)/MD 506 (Sixes Road) intersection.

The signal will be on three-day flash mode until Thursday morning to allow drivers to become familiar with the new light until it is fully activated.

New residential development in the area required the developer to install the signal, add a median acceleration lane and new guardrail delineation. Approximately 37,000 vehicles use this section of MD 2/4 each day.
